Scrum List:

- Identifying six vital tasks given by our mentor Dr. Yue.
- Designing a site map for the new website with input taken from the current site [www.goscat.com](http://www.goscat.com). And also determining which areas are public and register users.
- Determining what are the important information required other than the normal existing one, when a new users registers with our Joomla website.
- Taking the use case diagram and breaking it into a sequence diagram.
