Team Nexus

Minutes of Meeting – 10/28

- Implementation finished on AGENT 2 (Strategy Recommendation Engine).
- Explore different scoring formulas that can be used to decide
  best Covered-Call Strategies and Option. i.e.
    1. Scoring = (Premium / Delta) ,
    2. Scoring = [(0.7 * Premium) – (0.3 * Delta)] ,
    3. Delta Filtration (High to Low) and then selecting highest premium,
    4. Scoring = [Premium * (1- Delta)]

- Discuss few strategies with our mentors for their understanding and finalize no.4 for our project development on that week.

Next Sprint Plan:

- Start working on Testing and Validation of the entire system.

- We also need to start working on Poster making as we have Poster presentation on 11/19/2025 (Wednesday).

- Meanwhile ,we'll also start working on "Final Report" & "Final Review Presentation".
